What next?

- Keep your address updated

- USACO next weekend:
  `http://ace.delos.com/contestgate/`

- TopCoder collegiate: `http://www.topcoder.com/`

- Web training

- Next camp

Web training

- 4–8 problems between now and June training camp

- No Java

- Does count for selection

- You will need access to `https://olympiad.cs.uct.ac.za`

- Also USACO training:
  `http://ace.delos.com/usacogate/`

Presentations

- Possibly a greater emphasis on actual problems

- First come, first serve

- Some ideas
  - Advanced graph theory (lots here)
  - String algorithms
  - Linear equation solving
  - Big numbers
  - Computational geometry
  - Network flow

Problems

- Two problems each (not necessarily original)

- Work with the eval system

- Send us problem names to get templates

- Also tell us problem *type*

- *Start early!*
